# CARLOADS OF WHISKY SPILLED IN A WRECK.

Alten People Catch Much of the Liquor and Carry It Away in Bottles and Buckets.

A carload of whisky was spilled in a railroad wreck on the Chicago and Alton, near the Western Military Academy, in Upper Alton, last night. A stock train, No. 84, collided with a merchandise train, No. 80.

Train No. 80 was unable to climb the steep grade and had backed down to the curve back of the military neademy to make another start. Train No. 84 was following close behind, and before a signal could be given the engine of 54 ran into the caboose of No. 80. The caboose was demolished and the trainmen inside barely escaped by

The car shead of the caboose was loaded with whisky in cases and barrels, and the contents of the car was scattered over the right-of-way, barrels even rolling into adjacent fields. The staves of the barrels were broken, and nearly every package of whisky in the car was emptied on the ground. The whisky saturated the ground so thoroughly that the air was filled with

The Western Military Academy boys went to visit the wreck, but when the commandant, Major W. G. S. Lowe, learned the auture of the contents of the car, the cadets were marched away without seeing

the work of clearing the track. Upper Alton citizens learned of the wreck and gathered in large numbers to collect some of the liquor which was being allowed to leak from the packages to the ground. It is said that much of the liquor was saved by the bystanders, who carried buckets and bottles. The engine of train No. 54 was badly damaged in the collision.
